Description of Intervention

The school community should provide options for removing unwanted waste items such as batteries and technological devices e.g. phones, laptops etc. This ensures that the school community is getting rid of technological products at their end of life in a responsible way.

Commented [ED1]: Provide a

Impact Measurement

Six months after the intervention is introduced a survey will be taken to see whether participants utilised this service in the school and if they would recommend it be implemented permanently.

ENERGE Intervention Strategy

Facilitators	Barriers
<p>The school Committee will provide the survey and assist in interpreting the results.</p> <p>The ENERGE Committee should ensure the school community is aware of the interventions services and how they can avail of battery boxes etc.</p> <p>For more info on how to responsibly get rid of waste go to https://www.mywaste.ie/</p>	<p>Self-efficacy issues</p> <p>Apathy</p>

Intervention Process
<ol style="list-style-type: none"> 1. The school committee alongside the ENERGE Committee must educate themselves on how technological and battery waste is maintained in Ireland. 2. They should then search for a supplier/service which will allow the school community to get rid of their technological/battery waste. 3. The school community should be informed of this service by the school committee through announcements/ emails/ posters etc. 4. After 6 months, a survey will be given to the school community. This will gauge whether people utilised the service and whether the intervention was worthwhile.
